

LED Solar Post Top Light

Improved Design

With a simple switch, You now have full independent control of the color temperature you desire. Choose between a warm white or daylight color all within one lamp.

Automatically Dims Down

3-5 nights of continuous charge. A dimmer comes pre-installed so when dusk is detected, the light powers at full brightness and then becomes dimmer over the next few hours to preserve battery.

Easy Installation, No Electric Bills

This Light can be mounted on a pole (diameter up to 3 inch with a mounting height of 11 to 16ft) in direct sunlight for charging.

Features

- CCT: 3000K/5000K, 2 colors within 1 lamp
- Solar Panel: Mono-Crystalline
- Power Output: 35W, 4000LM
- Battery: Li-ion 240WH
- Battery Display
- Size: 22" (W) x 8.2" (H) 3" (D)
